

Our engaging and entertaining literature-based STEM books can be used for:

Increasing Analytical Reasoning ▪ **Developing College Readiness**
Building 21st Century Skills ▪ **Promoting Creative Thinking**
Supporting Problem-Based Learning

Ways to Use Our Supplemental STEM Books

Bell Ringers / Do It Nows / Activators

Get their brains wound up with a math or science mystery!

Math and Science Curricula Enrichment

Our books don't replace your curriculum; they support and enhance it!

Cross-Curricula Content

Our STEM books include Social Studies, History, Art, and more. Perfect for cross-curricular learning!

Extended Learning Opportunities (ELOs)

Learning doesn't stop when the bell rings. Use these books in after-school programs, camps and other ELOs.

Incentives for Success

Our bulk discounts mean affordable gift giving. Send the message that a home library is important.

Contest Content

Spark interest through competition! Have the kids submit answers to weekly mysteries or questions.

Special Education and Behaviorally Disordered Classes

Great springboards for science and math discussions, tapping into the kids' natural curiosity. Kids like the consistent format and the titles are perfect for kids with short attention spans.

Classroom and School Library Expansion

These literature-based books are perfect additions for classroom and school libraries.

Optimizing Downtime

Finish a lesson five minutes early? No problem... continue the learning with a mystery or question.

Content for Non-STEM Educators

Great resources for subs and non-STEM teachers looking to add STEM content into their lessons.

Book Fairs and Other Fundraiser Resources

With our Event Sales Program, you can make money selling these great books to your families.
